### **Workshop on Turning Ambition into a Reality**

How many times have you been in a meeting and someone says to you, “That’s a great idea, you should take the initiative and make it a reality.” What typically happens? Most of the time – nothing. Most great ideas remain dormant because people don’t have those essential skills to take action. And for those who take action, most are unprepared and thus find themselves spending their valuable time and money on a dream that simply goes astray. Converting ambition into a reality has never been an easy task; it requires lots of courage, patience, decision making skills, effective communication, leadership traits and many more life skills. We expect education to prepare young people for the world of work and for economic independence but at the same time we forgot the importance of life skills which is an essential part of being able to meet the challenges of everyday life. . Life Skills not only make a person capable of survival in the competitive world but also it enhances the wellbeing of a society and promotes positive outlook and healthy behavior. Life skills are abilities for adaptive and positive behavior that enable us to deal effectively with the demands and challenges of everyday life.

#### **Objectives**

- To gain more confidence in their skills and strengths
- To overcome barriers to employment due to lack of life skills
- To help youth develop a broad range of skills and knowledge in order to participate in the current and future labor market
- Find new ways of thinking and problem solving
- To increase the level of awareness and understanding of context, culture, identity and diversity
- Develop a greater sense of self-awareness and appreciation for others

#### **Benefits of attending – You will be able to**

- Understand self
- Lead by influence
- To gain knowledge of various life skills like Time Management, Decision Making, Responsibility Handling, People Management etc.
- Adapt to different working environments
