

# E-YUVA CENTRE

CENTRE FOR CONVERGING TECHNOLOGIES

UNIVERSITY OF RAJASTHAN, JAIPUR-302004

## One day workshop on **Patent search, Drafting and Filing Strategies for Success**

16th September 2022

10 AM onwards

The workshop aims to provide a stimulating platform for participants to develop their skills in Intellectual Property, specifically in Patents. The first step in innovative research is to recognize a problem or a shortcoming in the field, and then provide a product or a sound technological solution that addresses that problem. The next step is to search patent databases to see whether this innovation can be patented or not, and if yes, then how a patent can be drafted to ensure full protection of your Intellectual Property. The final stage is to file your patent nationally and internationally. The workshop facilitates interaction with leading Patent experts to help the participants hone their patent search and drafting skills.

### Speakers

**Dr. Bhanu Verma**

*Sr. Principal Scientist,  
CSIR Innovation Protection Unit,  
New Delhi*

**Mr. Pankaj Kumar**

*Registered Patent Agent and Advocate,  
Assistant Professor,
